

SNAP SHOTS

Prof. Hiram B. Harrison has been elected a director of Washburn college. A sham battle between the infantry and artillery of the Kansas National Guard will be fought July 4 at Vine-wood park.

The circus Thursday afternoon and night entertained small crowds. And it undoubtedly was the best dog and pony show that ever has been in Topeka.

Every train out of Topeka for Colorado is taking people from the hot city to the cool mountains. The rates are so cheap that it is possible for every one to go.

Dogs and cats are being poisoned by the wholesale on the west side. The next legislature ought to provide for an adequate punishment for this class of poisoners.

Commissioner Holman says he never has made any children's playground promises and that this subject was not included in his campaign literature. Oh, you, Parsons.

The street cars have resumed their old routes to Washburn college. For a number of days cars have been going out Tenth avenue and have caused considerable inconvenience.

Rev. C. B. Zook will speak at Garfield park Sunday afternoon at 3:30 o'clock. Music will be furnished by the Knights and Ladies of Security band.

According to those who claim to have been there, the fishing just above the waterworks on the Kansas river, is better than ever before. It also is claimed that if fishing is poor, swimming is good.

Supplies for the W. Y. C. A. camp were taken to Walarusa at an early hour this morning. The load included 24 cots, four tents, bedding, and other supplies.

There has not been an arrest for automobile speeding for some time—and the drivers are getting more reckless every day. It takes a bad accident or a death to stir up the police department along this line.

The Washburn summer school and institute played a game of baseball the other day. Despite the "old heads" on the summer school, the institute won out. Some good material for next year was discovered in the summer school team.

The city officials are not going to bore holes in the fire cistern covers, as recently suggested by Manager Tre-leaven of the Consumers' Light, Heat & Power company. It is claimed that passing street cars would ignite escaping gas and cause bad accidents.

The Chautauqua Heralds, which will contain a full program of the coming Chautauqua, have been delayed, but are now in press, and will be available in a day or two. On account of this delay, the limit for the sale of season tickets at reduced prices has been extended to July 15.

M. C. Holman, city commissioner, has ordered 100 new park benches for the city parks. These benches are guaranteed to hold seven average people—and about fourteen lovers. Mr. Holman said he also was figuring on a number of benches "built for two."

It is contended that a bench about 18

inches wide is sufficient for the average couple.

The hotter the weather the higher the cost of lemons. In the winter time eatables that are needed also jump in price. Just the things that people want are expensive. If people took a fancy to eating sunflowers and milk weeds some trust would get a corner on them—either a trust or a commission merchant. (Not much difference in Topeka.)

The city commissioners have made arrangements with the Edison company to wire the auditorium at Garfield park for incandescent lighting. This will make it possible to have the auditorium brilliantly lighted for the evening meetings of the Chautauqua, which opens on the 15th of July, and also for the convention of the Young People's Union which will occur in August.

Ralph Seger of the Washburn college engineering department, and Dick Reed, of the University of Kansas engineering department, departed on the Rock Island this morning for Edmonton, Alberta, where they will work for the Grand Trunk Pacific railway on construction work west to Pacific coast terminal. They will stop at St. Paul and Winnipeg on their way back to their new field of work.

Athletic Globe: If you love horses and hate flies, here is a recipe that you should paste in your hat: Pennyroyal, 1 ounce; alcohol, 2 ounces; fish oil, 1/2 pint. Mix in a bottle and shake well before using. Apply lightly to the horse's coat each morning, and for 21 hours he will be immune from winged pests. Be careful to apply the preparation lightly, or it will stiffen the hair. It has no offensive odor, and is absolutely harmless.

There has not been a prosecution brought against the railroads in the United States district court for violations of the 28 hour law since February. Upon its passage in 1904 a vigorous enforcement to compel railroads to unload and feed and water stock in transit at least once in 28 hours was begun. That prosecution seems to have brought excellent results for there are no longer any complaints. Nearly three hundred cases were instituted previous to February in the four years the law has been operative.

TO HUNT FOR HITITTE DATA.
Professor Bude Hopes to Throw Light on Hieroglyphics.

New York, July 1.—Prof. William F. Bude of the University of California, who has reached New York from Germany, announced on his arrival that he will soon undertake an expedition into the Hamath region of Asia Minor to excavate cities of the ancient tribes of Hititites, who flourished several thousand years before the Christian era. The place where Professor Bude expects to conduct his work is 80 miles northwest of Damascus. "Archaeologists have been unable to decipher the Hititite hieroglyphics," Professor Bude said, "but I believe that the problem may be solved if we can unearth bilingual hieroglyphics, involving both Hititite and Aramaic signs."

The expedition will be independent of any institution.

Take your dinner tomorrow noon or evening at Cope's dairy lunch room.

WANTS AND MISCELLANEOUS ADS
